Program

A montage of the 2015 Awards of Merit will be shown on screen during entrance and during dinner.

I. Welcome
IES President, Mark Roush
Acknowledgement of Conference Sponsors

II. Dinner

III. Presentation of the 2015 IES Louis B. Marks Award
Recipient: Lewis S. Sternberg

IV. Presentation of the 2015 IES Medal Award
Recipient: Alan L. Lewis

V. Howard Brandston Student Lighting Design Education Grant
2015 Grant Recipients
Sean Poulis and Nathan Ritta
University of Nebraska - Lincoln (Omaha Campus)

2015 Honorable Mention
Sean O’Neill and Jesse Rathod
The Pennsylvania State University

VI. Presentation of the 2015 Illumination Awards
Welcome
Megan Carroll, Chair, Illumination Awards Committee

Presentation
Awards of Citation, Excellence and Distinction

VI. Closure
IES Louis B. Marks Award

The IES Louis B. Marks award is named in honor of the first President of the IES. It is presented to a member of the Society in recognition of exceptional service to the Society of a non-technical nature.

Lewis S. Sternberg

Medal Award

The IES Medal is awarded with the purpose of giving recognition to meritorious technical achievement that has conspicuously furthered the profession, art or knowledge of illuminating engineering. Accomplishments shall be in the field of engineering, design, applied illumination, optics, ophthalmology, lighting, research or education.

Alan L. Lewis

Howard Brandston Student Lighting Design Education Grant

The Howard Brandston Student Lighting Design Education Grant was established in 1988 to encourage and recognize students who have evidenced professional promise through presentation of an original and ingenious solution to a supplied lighting design problem.

2015 Grant Recipients
Sean Poulicek and Nathan Ritta
University of Nebraska - Lincoln
(Omaha Campus)

2015 Honorable Mention
Sean O’Neil and Jesse Rathod
Pennsylvania State University
The IES Illumination Awards program recognizes individuals for professionalism, ingenuity and originality in lighting design based on the individual merit of each entry. Judges are selected from a broad professional spectrum representing knowledge of lighting and design excellence. The judging system is entirely based on how well the lighting design meets the program criteria. The Illumination Awards program is not a competition. 2015 marks the 42nd anniversary of the IES lighting awards program.

The IES Illumination Awards comprise five parallel program categories:

- **The Aileen Page Cutler Memorial Award for Residential Lighting Design**
  Aileen Page Cutler, was revered for her ability to push the boundaries of residential lighting design. To give back the community where she thrived, Mrs. Cutler developed training programs to teach others the art and science of residential lighting. This prestigious award furthers her legacy through the recognition of exemplary projects which utilize traditional and unconventional design techniques to present inspired solutions to residential lighting challenges.

- **The Edwin F. Guth Memorial Award for Interior Lighting Design**
  In 1902 Edwin F. Guth founded the St. Louis Brass Company and later renamed it the Edwin F. Guth Company. Mr. Guth’s profound creativity, entrepreneurialism and focus to improve interior lighting are partially represented through 147 patents awarded to him prior to his passing in 1962. This award recognizes exceptional interior lighting projects that balance the functional illumination of space with the artistic application of light to enhance the occupant’s experience.

- **The Energy and Environmental Lighting Design Award Sponsored by Osram Sylvania**
  The Energy and Environmental Lighting Design Award recognizes quality lighting installations in commercial and industrial buildings that incorporate advanced energy-saving strategies and environmentally responsible solutions into the overall design.

- **The Lighting Control Innovation Award Sponsored by the Lighting Controls Association**
  Advanced lighting control solutions can provide significant energy savings, flexibility and other benefits in buildings. This prestigious award recognizes good lighting projects that exemplify the effective use of lighting controls in nonresidential applications.

- **The Outdoor Lighting Design Award Sponsored by Eaton**
  The Outdoor Lighting Design Award recognizes excellence in lighting design and application in all aspects of exterior lighting. The program celebrates achievements in aesthetics, applied technical acumen, creative solutions to demanding site conditions and advancements to the industry in outdoor lighting applications. The goal of the program is to further the understanding, knowledge and function of outdoor lighting as a critical aspect of the built environment.
Award Levels

Section Award
Awarded at the local section level to recognize commendable achievement in lighting design.

Award of Merit
Awarded to recognize meritorious contribution to lighting design. Projects receiving sufficient scores continue on to be judged at the final level.

Final Awards
Awarded at the final level of judging and includes the following designations:

- **Special Citation** - Awarded for superior elements of an outstanding lighting design, or in some instances, the use of lighting as an art form.

- **Award of Excellence** - Awarded for an exceptional contribution to the art and science of lighting design.

- **Award of Distinction** – Awarded for extraordinary achievement in lighting design.

All projects receive levels of recognition attained by consensus judge scores.
Energy and Environmental Lighting Design Award
Sponsored by OSRAM SYLVANIA

Special Citation for Luminaire Design

Ambient Lighting in the Densan Headquarters Building
Tokyo

Designers: Risa Nakao, Kouji Odaka, Mutsuo Honma – Nikken Sekkei Ltd.
Yoshiki Nakamura – Tokyo Institute of Technology

Acknowledgment

The Society would like to thank the many people who make this program a reality.

To the IES Section IA chairs and Section officers who volunteer their time and effort in promoting the program and hosting section programs and award presentations at the local level.

To all of the judging panels: section judges, online judges and final judges who gave of their time and expertise to review the submissions for this year’s program.

To the members of the Illumination Awards Committee who strive each year to enhance the IES Illumination Awards and continue to produce a valuable and prestigious award program.

And, to the lighting designers who, through their submission, share their knowledge, expertise and ingenuity with the entire lighting design community through the presentation of their successful work in response to the many challenges faced by the lighting profession.

If you are interested in learning more about the IES Illumination Awards program please visit the IES website
