“Regardless of how long you’ve been in the Lighting Industry, attending the IES Annual Conference is the BEST way to collaborate, network, and experience the PASSION of our industry.”

— 2019 EP attendee

www.ies.org/ep
ABOUT THE EP PROGRAM

The IES Emerging Professional (EP) Program is intended for students, recent graduates (up to 5 years after graduation) or professionals making a career change. The program offers career development, networking, and learning opportunities for emerging or new professionals. Every year students and new lighting professionals gather at the EP events held in conjunction with the IES Annual Conference to learn more about the lighting industry, leadership within the IES, and to build valuable relationships to further their lighting careers. The involvement of new professionals mutually benefits students and EPs, as well as the Society as a whole through the exchange of ideas and experiences. This event is possible because of the generous contributions of the EP Sponsors. We invite you to consider supporting the future of the lighting industry this year!

“I found the EP events to be especially beneficial as it gave me the chance to connect and share experiences with other professionals who are also in the early stages of their lighting careers.”
— 2019 EP attendee

“I learned that the field of lighting is very large, and there is always something new to learn.”
— 2019 EP attendee

“Critical to the future of lighting.”
— 2019 EP attendee
