How the Listings Were Compiled

This directory is derived from the online IES Manufacturers Directory (http://iesmanufacturersdirectory.com), which is comprised solely of paid listings (active as of January 2, 2018) from manufacturers. Companies are listed alphabetically and by the product categories that they selected when purchasing their online listing. Companies are able to purchase an online listing at any point in the year.

Please Note | LD+A disclaims any liability for loss or damage caused by errors or omissions, whether such errors result from accidents, negligence or any other cause.
### Alphabetical Listings

#### A-Z

### Product Listings

#### Ballasts
- Electronic
- Emergency
- Fluorescent
- High Pressure Sodium
- Low Pressure Sodium
- Mercury
- Metal Halide
- Step Down

#### Lighting Controls/Systems Management Applications
- Commercial
- Industrial
- Office
- Residential
- Roadway/Street Lighting
- Theater/TV

#### Lighting Controls/Systems Management For
- Fluorescent
- HID
- Incandescent
- Low Voltage
- Neon/Cold Cathode
- OLED

#### Luminaire Types
- Custom
- Decorative
- Emergency
- Exit
- Explosion Proof
- Floodlights
- High/Low Mount
- Navigation Lights
- Pendant
- Portable
- Recessed
- Searchlights
- Sign
- Spot/Accent

- Illuminance
- Luminance
- Other

#### Mounting Devices
- Custom Poles
- High Mast Poles
- Lowering Devices
- Standard Poles

#### Outdoor Lighting
- Area Lighting
- Historical Lighting
- Outdoor Signage
- Roadway/Street Lighting

#### Miscellaneous
- Continuing Education
- Fiberoptics
- Lasers
- Maintenance Equipment
- Photometric Testing Labs
- Software
- Other

### Light Control Components
- Anodized Aluminum
- Glass Lenses/Diffusers
- Louvers-Baffles
- Luminous Ceiling
- Plastic Lenses/Diffusers
- Reflectors

### Light Sources
- Blacklight
- Compact Fluorescent
- Fluorescent
- High Pressure Sodium
- Incandescent Filament
- LEDs
- Low Voltage
- Mercury
- Metal Halides
- Miniature Lamps
- Neon
- OLED
- Tungsten Halogen

### Lighting Applications
- Commercial
- Industrial
- Institutional
- Landscape
- Office
- Residential
- Roadway

### Luminaires For
- Fluorescent
- Halogen
- High Pressure Sodium
- Incandescent
- Induction
- LEDs
- Low Pressure Sodium
- Low Voltage
- Mercury
- Metal Halide
- OLED
- Plasma
- Xenon Short Arc

Recommended Practice for Lighting Industrial Facilities (ANSI/IES RP-7-17)

The scope of this ANSI approved practice covers the design of new indoor and outdoor lighting systems for new industrial facilities as well as the redesign of lighting systems in existing industrial facilities. Recommendations are based on quality lighting practices, including: the safe movement of vehicles and people, enhancing the productivity and comfort of employees, conserving energy, and minimizing maintenance. Recommended minimum maintained lighting levels and maximum uniformity ratio guidelines are provided but are subject to variation for special circumstances when based upon sound engineering judgment.

2017 - 120 Pages (ANSI approved)
List Price: $90.00
Member Price: $63.00

Premium architectural downlight series. 2" - 8" apertures, round & square, trim & trimless, IC & non IC. Offers best in class LED systems, widest choice of dimming & controls. Bluetooth LE, superior optics, adjustments & finishes. Dim to warm, kelvin tunable, hue (color) tunable. 500-12,000 lumens & 5/10 year warranty.

Mid-range Commercial grade downlight series. Offers bulletproof LED system with a variety of kelvin, output & control options. Available with Quick Ship & Energy Star. Shallow plenum, rugged construction & 5 year warranty.

Architectural Grade Decorative Trim elements in glass & metal mated to performance LED downlights in 2" - 24" sizes.

Specialty downlight series for high abuse, vandal resistant, MRI, hospital, fire rated & concrete pour & other specialty recessed applications.

Multiple Module series for recessed & surface applications. Uses components & options from our Spectrac line & incorporates clean well-made housings. Featured product is: RCC6 Series surface & pendant fixture.

Entry level Contractor series downlights. Quick connect led cup. Integral 120-277 0-10V, 1% dimming driver with auto dim thermal & overload protection. Deep recess for 50º cutoff & higher end finished look. 4", 6" & 8". Energy Star pending. 5 Year warranty.

Mid-range Commercial grade downlight series. Offers bulletproof LED system with a variety of kelvin, output & control options. Available with Quick Ship & Energy Star. Shallow plenum, rugged construction & 5 year warranty.

2" - 13" sizes for decorative, general illumination & theatrical high ceiling applications. Featured products: SPC0412 & SPC0612 high lumen performance series.

Huge selection of low, mid & high bays in 12" - 36" sizes. Lumen range of 1000-24,000. Choice of styles to suit schools, retail, industrial, office & other open ceiling designs. Featured product is: PRDDH12/16.

Wide range of styles for pendant, wall, surface & other mounting. Glass, acrylic & metal materials designed with a contemporary leaning. Featured product is: BL1317 pendant.

Reinterpretations of classic American lighting with modern LED sources & creative mounting, lenses, finishes & styles. Featured product is: NL1012GV Nautical Light RLM in pendant & wall mount.

New from Spectrum is our 2" Specline Recessed Grid & Pendant. Interchangeable optical lenses, with a variety of mounting & custom lengths available. Featured product is: S0032D Specline 2" linear pendant.

The Howard Brandston Student Lighting Design Education Grant was established to encourage and recognize students who have demonstrated exceptional professional promise through the presentation of an original and ingenious solution to a supplied design problem.

The Grant Award is a plaque and a grant in the amount of $1,000. Honorable Mention (if awarded) is a certificate and a grant in the amount of $300.

Group entries are allowed. However, if a group entry is selected, each student will receive a plaque or certificate. The monetary grant will be divided among the recipients.

To be eligible to enter this competition, applicants must be enrolled as full-time students in an approved academic degree program. Approved programs are those offering a substantial core of illumination studies and are either engineering technology programs accredited by the Accreditation Board for Engineering and Technology; architecture programs accredited by the National Architectural Accrediting Board; interior design programs accredited by the Foundation for Interior Design Research; or theatre programs accredited by the National Association of Schools of Theatre. If there is a question about accreditation, please query.

The purpose of the Howard Brandston Student Lighting Design Education Grant is to foster good lighting and to advance the appreciation of lighting as an art.

Calendar
Project Due: IES Office by May 15, 2018
Project Judging: June 2018
Grant Notification: July 2018
Recognition: Grant recipients will be recognized at the IES Award Ceremony Annual Conference 2018 Boston, MA.

Project drawings and application form are available at the IES website at https://www.ies.org/membership/society-awards/howard-brandston-student-lighting-design-education-grant/
